What is a Small Business VSQG Clean Sweep?

It is a convenient, safe, and low-cost opportunity for Very Small Quantity Generators (VSQG), such as small businesses, to dispose of unwanted, unused, damaged, and/or banned hazardous chemicals (especially pesticides).

What is the cost?

Businesses will work directly with Veolia North America to determine the cost of disposal.

Small Business (VSQG) Participation

A Very Small Quantity Generator (VSQG) is a business that generates less than 220 lbs. of hazardous waste per month and stores less than 2,205 lbs. per year. If you are a VSQG and would like to dispose of your hazardous materials at a reduced cost, print and complete the **Veolia VSQG Chemical Inventory Form** (*next page*) and send it to Veolia for an estimate. You may also call Chris Bahlow at Veolia . . . 715-298-2623 . . . for assistance.

Small businesses that meet pesticide licensing categories regulated by DATCP are encouraged to participate.
