

The Importance of Prevention to Your Emotional Well-being

How LifeWorks Can Support You

Mental health is the capacity of each and all of us to feel, think, and act in ways that enhance our ability to enjoy life and deal with the challenges we face. And when it comes to our health -- physical or mental -- being proactive and focusing on prevention works!

LifeWorks is here for you any time, day or night, with expert advice to help you adopt strategies that support positive mental health. We can also provide information, resources, and referrals. Contact us 24/7 to speak confidentially with a caring, professional consultant who can help you:

- **Understand the value of self-care**, leisure time, and a healthy lifestyle that includes good sleep habits, a diet that nourishes your body, and an exercise routine that boosts energy
- **Identify and manage your stress**, and recognize the importance of talking about stressors with friends, family, co-workers, or professionals you trust
- **Distinguish between positive and negative stress**, and learn ways to manage unhealthy stress through mindfulness, meditation, or deep breathing techniques
- **Build resilience and coping skills** so you're able to face tough challenges with confidence and weather disappointment or failure
- **Become more self-aware** and able to recognize the signs and symptoms of a possible mental health problem
