

An opportunity to help people age in a positive environment with friends by their side.

Lasata Senior Living Campus

A bicycle built for 2 seniors.

What better way for local campus seniors to feel the wind in their hair and the ability to relive an age-old but youthful experience through a rickshaw ride powered by local community partners! Smiles, giggles, stories, and relationship building are all free as part of this mutual experience. Local community “pilots” will volunteer their pedal skills providing numerous journeys for seniors on a daily basis. And excitement is up for the purchase of two bikes for the LaSata Senior Living Campus for the spring 2016 cycling season.

Will you be part of the journey?

Each bike has an initial cost of \$6,300 and has been designed and manufactured to meet the physical needs of senior passengers. “Pilots” volunteer their pedal power, and a local retailer has already offered their skills to provide maintenance on the bikes. Additional purchased supplies include bike helmets and reflector jackets for the safety of the pilots and seniors and ongoing maintenance costs of the bikes. Our goal is \$15,000, and sponsorship opportunities are available. In addition, your donation is tax deductible as the Lasata Senior Campus is owned by Ozaukee County and is government tax exempt.

For more information, and/or to donate, please contact Beth Carstens at bcarstens@co.ozaukee.wi.us or (262) 512-2838.

A true county-wide effort coming together for those who gave us their care and time!
